Sponsorship Opportunities

**Get Help Here**

*Committed to providing a network of easily accessible first aiders within residential communities to provide immediate assistance during personal medical emergencies.*

[www.GoodNeighbourMedical.com](http://www.GoodNeighbourMedical.com)

Thank you for taking the time to consider supporting Good Neighbour Medical. As a not-for-profit organization, we strive to provide efficient services to communities through strengthening neighbour relationships and creating a network of medical care to improve the wellbeing of citizens.

## Who are we?

We often do not know our neighbour well enough; and we think it is a time to fix that. With statistics reporting that over

**“One million injuries\*”**

occur in homes each year, 63% of the elderly suffering slips or falls, and healthcare needs increasing; a solution is needed to help our current health care system. Although GNM is not an alternative, it is a great option for avoiding unneeded hospital and doctor visits and providing relief to a strained system.

## What do we do?

Good Neighbour Medical consists of two components. The primary purpose is at home first aid through a network of certified first aid responders supplied with the tools necessary to provide others within their immediate neighbourhood with access to their first aid.

Each Good Neighbour Responder will be provided with a welcome package. This package includes item such as:

The image shows a template for a window sign. On the left, the text 'GoodNeighbourMedical.com' is written vertically. The main content includes the logo 'Good Neighbour Medical' in red and blue, with the tagline 'Get Help Here' and 'Need Help? Call 9-1-1 first if needed'. To the right is a red house icon with a blue cross. Below this are three horizontal lines for 'name', 'address', and 'phone number'. At the bottom, it says 'If the sign is in the window, I'm home!'.

- Welcoming letter
- Instruction manual
- Window/door sign
- Customized business cards
- Emergency contact Card

\*per Statistics Canada's "Health at a Glance"

The secondary purpose is emergency aid to governing entities. During a declared emergency, Emergency Managers and other emergency personnel can request access to our database provided by Esri's ArcGIS of Good Neighbour Responders located within their area. They can then be contacted to provide additional support such as evacuation center medical aid and additional aid at emergency sites.

## How can you help?

As a growing organization, we face daily costs that require your support. Contributions to our efforts can be made in many ways including the following:

- ✓ Ongoing sponsorship of daily activities
- ✓ On-time sponsorship
- ✓ Event sponsorship
- ✓ Donations of goods and services for auction, resale, giveaways, raffles, etc.
- ✓ Donation of office equipment and consumables
- ✓ Options for real-estate for office and home-base use
- ✓ Donation of vehicle for storage, transportation, and marketing
- ✓ Donation of custom marketing goods and services
- ✓ Other contributions

## How will it benefit you?

Every contribution is very important to us and we feel it is important to thank our donors in any way possible. Currently we can place company names and logos on event signage and displays and/or provide free advertising on our website and social media. Other options are open to discussion on a per-case basis.

*It is not enough to stand by while someone suffers. I cannot count how many times I have seen an ambulance pull up and thought to myself, was there anything I could have done to help? Good Neighbour Medical allows first aiders to better use their skills and assist their community. It is time that we learn our neighbours' names again!*
