

PURIpurge™

Portable, Universal, Reusable, I-wash

According to the Occupational Health & Safety

Administration:

“Where the eyes or body of any person may be exposed to injurious corrosive materials, suitable facilities for quick drenching or flushing of the eyes and body shall be provided within the work area for immediate emergency use.”

In that Spirit...

Any means of flushing the eye of contaminants is a fantastic addition to your workplace safety protocol.

Full Disclosure

The PURIpurge™ does not meet any ANSI or CSA regulations and does not qualify as a primary or supplementary/ personal eye wash

Your eyes are important, always use proper eye protection when working

However, accidents happen so be sure to have a PURIpurge™ on hand

When you need it,
you **NEED** it!

Device Use

Turn any* disposable water bottle into an emergency eye wash device!

1. Simply screw the PURIpurge™ onto your bottle of clean water
2. Place the device up to your eye
3. Squeeze the bottle gently

*fits most disposable beverage bottles in North America
